DEPARTMENT OF CITY PLANNING  
ZONING INFORMATION (ZI) FILE  

Effective Date: September 2, 2014  

ZI NO. 2438  
Equine Keeping in the City of Los Angeles  

COUNCIL DISTRICT: All (Citywide)  

BACKGROUND:  
Many Los Angeles communities have a long tradition of equine keeping, which contribute to these communities’ distinctive character and quality-of-life. This is especially the case in the San Fernando Valley, particularly in communities such as Lake View Terrace, Shadow Hills, Chatsworth, Sylmar, as well as many other Valley neighborhoods.  

As development pressures have mounted in these traditional lower-density neighborhoods (lots zoned RA, RE20, RE40, A1, and A2), equestrian-oriented lots have been subdivided into sizes too small to accommodate equines, buffers between equine and non-equine uses have been diminished, equine keeping rights have been lost due to new, adjacent development, and commonly used trails have been obscured or interrupted by new developments. These pressures over time have resulted in a loss of valuable and irreplaceable equine keeping lots that contribute to the rich and dynamic character of Los Angeles.  

Improved regulations can assure that existing equestrian-oriented neighborhoods are preserved and that future developments in these areas continue to contribute to the City’s rich equestrian tradition.  

Currently, the Los Angeles Municipal Code has very specific provisions with regards to the keeping of equine. This Zoning Information File outlines the required building permit process and general development guidelines for development on equine keeping lots.  

INSTRUCTIONS:  
No building permit shall be issued by the Department of Building and Safety (LADBS) for any building which creates new habitable space on a lot located in whole or in part within an Equine Keeping “K” District or lot zoned RA, RE20, RE40, A1, or A2 until the applicant completes and submits the “Equine Keeping Checklist Form” to LADBS prior to the issuance of the building permit. This form will be provided to the applicant by LADBS during the plan check process. For more information regarding the process refer to the flowchart.  

LADBS shall not issue a building permit for a residential building or addition (excluding non-habitable rooms) that does not comply with the distance requirements, unless the Zoning Administrator makes an exception in accordance with LAMC Section 12.24X.5. For more information please contact the Department of City Planning’s Development Service Center (DSC) at 818-374-5050, located at the Marvin Braude Building in Van Nuys.

EQUINE KEEPING CHECKLIST FORM

No building permit shall be issued for any building creating new habitable space on a lot located in whole or in part within an Equine Keeping “K” District and/or any lot zoned RA, RE20, RE40, A1, or A2 without completing this form. This form shall be completed and submitted during plan check. For more information on the process, refer to the flowchart.

Please read the following two (2) questions carefully and answer either YES or NO:

(1) Is there any equine keeping on any of the adjacent properties?
   (i.e. an equine, animal keeping enclosure, barn, equine license)
   NO  Yes

(2) Is there any equine keeping on your property?
   (i.e. an equine, animal keeping enclosure, barn, equine license)
   NO  Yes

If the answer to either of the above questions is “yes”, you will need to provide a dimensioned site plan that is to-scale and which shows the location of the equine keeping structure and/or enclosure on your lot and any of the adjacent properties and indicate the distances between your proposed habitable room additions, new single family dwelling unit, Accessory Living Quarters or Servant Quarters and such structures and/or enclosures. The information on the site plan shall be verified by LADBS inspection before construction can commence.

Please call (888)LA4BUILD or (888)524-2845, for Equinekeeping pre-construction inspection to verify the accuracy of the provided information before starting any construction.

For information on the setback requirements from an equine keeping structure and/or enclosure, please see LADBS Information Bulletin No. P/ZC 2002-018.

Any incorrect information may lead to the revocation of the corresponding permits.

Property owner or the authorized agent’s name: __________________________________________

Property owner or the authorized agent’s signature: _________________________________________

Date: ____/_____/______  September 2, 2014
ANIMAL KEEPING ENCLOSURE OR EQUINE ENCLOSURE
Any structure or fence which establishes the perimeter of an animal keeping and maintenance area.

ANIMAL KEEPING STRUCTURE
Any structure which has a roof and may have one or more sides and is used in whole or in part for the housing or shelter of animals.

Clarification: For purposes of determining the distance between habitable space and the animal keeping/equine structure and/or enclosure, the distance shall be measured from either an equine structure or the “unsupervised” enclosure where the equine is kept and maintained (where equines are permanently housed), and not the “supervised” enclosure where the equine is exercised or used for riding, generally the fence surrounding the perimeter of the rear yard.

Equine keeping structures no greater than 120 square feet in area, 10 feet in height, do not contain any heating, plumbing, or electrical installation, do not require a permit but shall comply with distance requirements. Generally, equine enclosures also do not require a building permit.

EQUINE
Any horse, pony, donkey, burro, or mule which is 12 months of age or older and is issued a current Equine License by the City Department of Animal Services. An animal which is under 12 months of age and is the offspring of or is unweaned and being nursed by a female equine lawfully kept on the property where said animal is kept shall not be considered an equine and shall be allowed by right on said property.

NONCONFORMING USE
A use of building or land which does not conform to the regulations of this chapter and which lawfully existed at the time the regulations with which it does not conform became effective.

STABLE, PRIVATE
A detached accessory building which has a roof and may have one or more sides and is used in whole or in part for the housing or shelter of an equine or equines owned by the occupants of the premises and not kept for remuneration, hire or sale.

HABITABLE ROOM
An enclosed subdivision in a residential building commonly used for living purposes, but not including any lobby, hall, closet, storage space, water closet, bath, toilet, slop sink, general utility room or service porch. A recess from a room or an alcove (other than a dining room area) having 50 square feet or more of floor area and so located that it could be partitioned off to form a habitable room, shall be considered as a habitable room. Accessory living quarters and servant quarters are residential (habitable) buildings whereas other accessory buildings such as recreation rooms, storage sheds, and garage are not.

ZONING INFORMATION (ZI) FILE NO. 2438
EQUINEKEEPING CHECKLIST
PERMIT APPLICATION FLOWCHART

Who needs to fill out an Equine Keeping Checklist form?

Is the Permit application creating habitable space on a lot zoned RA, RE20, RE40, A1, or A2 and/or located within an Equinekeeping "K" District?

Complete and submit an “Equine Keeping Checklist Form” during plan check with LADBS.

Are there any equine keeping uses on the subject property and/or any adjacent properties?

LADBS Plan Check staff will:
  - Inform the applicant to call for a pre-construction inspection to verify the accuracy of the information provided on the checklist form before starting any construction
  - Attach a copy of the site plan to the permit and to the approved set of plans
  - Add PCIS checklist item under “Equine Keeping”

Are equine keeping uses found during inspection?

If site plan does not comply with Zoning Code:
  Will the applicant modify the project?

LADBS Plan Check staff will:
  - Verify compliance with the Zoning Code
  - Attach a copy of the site plan to the permit and to the approved set of plans
  - Add PCIS checklist item under “Equine Keeping”
  - Issue permit

Inspector will visit the site and notify the applicant that:
  - Construction can start “or”
  - Require applicant to go back to Plan Check to submit a revised site plan based on as-built site conditions “or”
  - Require a supplemental permit.

Applicant will apply for a Zoning Administrator exception under 12.24X5 and process will start over.

Applicant is abandoning the project and the permit will be revoked.

Construction may begin.

LADBS Plan Check staff will:
  - Inform the applicant to call for a pre-construction inspection to verify the accuracy of the information provided on the checklist form before starting any construction.

Note: inaccurate information may lead to revocation of a permit.
